

Our new press is publishing some great books + creations from VITALITY's circle of friends, creations inspiring love, creativity + possibility on the planet. We invite you to join VITALITY's circle and consider writing something with us.

We work with authors to crowdfund \$1500 for each book's start-up fees through what we call VATRONS...essentially pre-orders from friends and family. Each VATRON/person pre-ordering a book for \$25 receives a print-copy.

After the \$1500 is raised, the author and VITALITY split the net profits for each book sold, either print-format or e-book.

As for editing, we don't + won't do it, as long as the book encourages love. We want the author's unique voice to shine through. We'll fix typos, etc. And authors own the copyrights to their work, not VITALITY.

Our world might be waiting for your voice to heal and grow...to realize the infinite nature in which we all live and can thrive!
